★ Shellac Background

- India are the main areas in the world where lac is cultivated. Over 90% of Indian lac comes from the States of Bihar, Madhya Pradesh, West Bengal, Maharashtra and Orissa.

Lac insects thrive on certain trees and the principal lac host trees in India

- Lac is the resinous protective secretion of the tiny lac insect. The major constituent of sticklac is the resin (70-80%).

Lac resin is composed of mainly hydroxy fatty acids of C14- C18 carbon chains, such as aleuritic, butolic, C14- C16 mono- and di-hydroxy acids

- Shri Balaji Shellac Product is started in 1970 my Grand Father to delivers the best quality of product . In India we provide the trusted and best quality of refine Bleach shellac.
- Quality Control to guaranteed timely deliveries of Shellac and other products from different parts of India
